49. The method of claim 2, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

50. The method of claim 3, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

B

51. The method of claim 4, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

52. The method of claim 5, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

53. The method of claim 6, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

54. The method of claim 7, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

55. The method of claim 8, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

56. The method of claim 9, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

57. The method of claim 10, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

58. The method of claim 11, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and

transmitting the signals representing the packing list is carried out by communicating over the Internet.

59. The method of claim 12, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

60. The method of claim 13, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

61. The method of claim 14, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

62. The method of claim 15, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

63. The method of claim 16, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

64. The method of claim 17, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

65. The method of claim 18, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

66. The method of claim 19, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

67. The method of claim 20, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

68. The method of claim 21, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

69. The method of claim 22, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

70. The method of claim 23, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

71. The method of claim 24, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

72. The method of claim 25, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

73. The method of claim 26, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

74. The method of claim 27, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

75. The method of claim 28, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

76. The method of claim 29, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and transmitting the signals representing the packing list is carried out by communicating over the Internet.

77. The method of claim 30, wherein any two of the steps of assigning shipping information signals, linking by digital communication, and
